Bugfixes

INFORMATION

When opening a project with the new version (2023-24.00), projects of previous version (2022-23.xx)

are converted and can no longer be opened with the previous version

Single-User

Multi-User

are not converted and can still be opened with this previous version

Single-User

Multi-User

COM Registration

the COM library has been changed and should be registered again
(start the program as ADMIN using „E3.series.exe /register“)

Attention:

Here are listed the bugs that have been fixed only in version 2023.

All other bugs have already been fixed in previous Patches/ServicePacks of version 2022.

The bug fixes are sorted and listed by designer number(s). This enables you, for example, to easily search for bugs reported to our support office.

Designer-40323 Attribute names not translated in “automatic display of device properties” window

Designer-41378 Merge clipboard - despite collision (marked red) still merged

Additionally to the bug fixes we also have added some new / enhanced functionality in this patch
